TK - 123

25 November 1968

MEMORANDUM FOR: Deputy Director of Security (PS)
SUBJECT : Influences on Government Use of
the Polygraph

1. This is for information only.
2. Further refinement and development of the polygraph program and the preparation of written material on the program as it now exists or as we change it require us to listen to what authoritative and influential sources are saying.
3. The attached report has been prepared with this in mind. With only a few exceptions, these sources have only stated the problem. The solutions remain to be worked out.

Chief, IRD
